

SASIRU NETHVIDU LIYANAGE

Full-Stack Software Engineer • Computer Vision & AI Architect

EDUCATION

2024 — 2028 (Expected)

BSC (HONS) IN INFORMATION TECH.
SLIIT, MALABE • 3RD YEAR

- Software Engineering Specialization
- OOP (Java), DBMS (MySQL, MongoDB), DSA

2023 — 2024

GCE ADVANCED LEVEL
GURUKULA COLLEGE, KELANIYA

- Accounting: A | Business: B | Econ: B

2020 — 2021

GCE ORDINARY LEVEL
GURUKULA COLLEGE, KELANIYA

- Mathematics: A Distinction (9 Distinctions)

SKILLS

- React 19, Next.js & Tailwind v4
- TypeScript & JavaScript (ES2024)
- Python, FastAPI & YOLOv11
- Node.js & Express Microservices
- MongoDB (Certified) & PostgreSQL
- Real-time WebSockets & Canvas
- Docker, Git & CI/CD Pipelines
- Clean Architecture & Unit Testing

ATTRIBUTES

- Analytical Problem Solving
- High-Concurrency Architecture
- Agile / Scrum Sprint Leadership
- English (Professional Working)
- Sinhala (Native)

PROFILE INFO

Results-driven 3rd-Year Information Technology Undergraduate at SLIIT Malabe specializing in modern web architectures, real-time Computer Vision (YOLOv11), and high-concurrency microservices. MongoDB Certified Data Modeler experienced in architecting sub-30ms WebSocket pipelines, relational-to-document database migrations, and clean test-driven architectures. Committed to building scalable production software with zero compromises on performance and code quality.

EXPERIENCE

SOFTWARE ENGINEERING INTERN MULTI TALENT TECHNOLOGY

2026 — PRESENT

Developing production-ready web solutions with React, Node.js, and modern cloud stacks. Collaborating with engineering teams on database workflows, REST APIs, and responsive UI architecture.

TRAINEE ACCOUNT ASSISTANT LIBERTY MOTOR ASSOCIATES

MAY 2024 — JUL 2024

Audited daily transactional records, conducted digital financial reconciliations, and implemented automated spreadsheet systems for billing accuracy, inventory management, and ledger control.

PROJECTS

AI SUSPICIOUS ACTIVITY & WEAPON DETECTION

YOLOv11 • FASTAPI • WEBSOCKETS

Real-time computer vision security surveillance detecting weapons (guns, knives) and behavioral anomalies over live PTZ camera feeds with sub-30ms frame latency and automated dispatching.

INTERACTIVE PORTFOLIO & CULTURAL TECH ENGINE

REACT 19 • VITE • TAILWIND V4

High-performance web portfolio with WebGL canvas, particle physics, bilingual SEO, and 98+ Google Lighthouse scores. Live at sasiruliyanaage.vercel.app.

AYURLIFE: AYURVEDIC HEALTHCARE ECOSYSTEM

FULL-STACK • MERN • FLUTTER

Healthcare portal and mobile application featuring diagnostic symptom search, registered doctor booking, and digital herbal inventory knowledge-base management.

ACHIEVEMENTS

• MONGODB CERTIFIED (2026)

Certified Data Modeling Path (ID: MDBwsxpdul98) issued by MongoDB, Inc. Completed 8 specialized tracks in schema optimization, indexing, and migrations.

• SLIIT HACKATHONS (2024 — 2026)

Active contributor to university technical workshops, competitive algorithmic hackathons, and open-source project developments at SLIIT Malabe.
