

SASIRU NETHVIDU LIYANAGE

FULL-STACK SOFTWARE ENGINEER • COMPUTER VISION & AI ARCHITECT

🌐 Live Portfolio: sasiruliyanage.vercel.app

EDUCATION

2024 – 2028 (Expected)

BSc (Hons) in Information Technology
SLIIT, Malabe • 3rd Year

- Software Engineering Specialization
- OOP (Java), DBMS (MySQL, MongoDB)
- DSA, Computer Networks, Web Tech

2023 – 2024

GCE Advanced Level (Commerce)
Gurukula College, Kelaniya

Accounting: A Distinction | Business: B | Econ: B

2020 – 2021

GCE Ordinary Level Examination
Gurukula College, Kelaniya

Mathematics: A Distinction • 9 Distinctions

SKILLS

LANGUAGES

TypeScript JavaScript Python Java SQL C

WEB & MOBILE

React 19 Next.js Node.js FastAPI
Tailwind v4 Flutter WebSockets

AI & DATABASES

MongoDB (Cert.) PostgreSQL MySQL
YOLOv11 OpenCV Redis

CORE STRENGTHS

- Analytical Problem Solving & DSA
- Real-time WebSockets & Vision Pipelines
- High-concurrency Microservices
- Clean Code Architecture
- Agile/Scrum Team Collaboration

PROFILE INFO

Analytical 3rd-Year Information Technology Undergraduate at SLIIT Malabe specializing in Full-Stack Web Architectures, Real-Time Computer Vision (YOLOv11), and high-concurrency microservices. MongoDB Certified Data Modeler experienced in architecting sub-30ms WebSocket pipelines, relational-to-document migrations, and modern cyber-minimalist UI/UX. Committed to engineering scalable, high-performance software with zero compromises on code quality.

EXPERIENCE

- SOFTWARE ENGINEERING INTERN** Jun 2026 – Present
Multi Talent Technology
Developing production-ready web solutions with React, Node.js, and modern tech stacks. Collaborating with engineering teams on database workflows, REST APIs, and UI architecture.
- TRAINEE ACCOUNT ASSISTANT** May 2024 – Jul 2024
Liberty Motor Associates
Audited daily transactional records, conducted financial reconciliations, and implemented automated spreadsheet systems for billing accuracy and inventory control.

TECHNICAL PROJECTS

AI Suspicious Activity & Weapon Detection

YOLOv11 • FASTAPI • WEBSOCKETS

Real-time Computer Vision security surveillance detecting weapons (guns, knives) and aggressive behavioral anomalies over live PTZ feeds with <30ms latency.

Python YOLOv11 FastAPI React 19 OpenCV WebSockets

Interactive Cyber-Portfolio & Cultural Engine

REACT 19 • VITE • TAILWIND V4

Ultra-fast personal portfolio with WebGL canvas, mathematical particle physics, bilingual SEO, and 98+ Lighthouse scores across Core Web Vitals. Live at sasiruliyanage.vercel.app.

React 19 Vite Tailwind v4 WebGL Framer Motion

AyurLife: Ayurvedic Healthcare Ecosystem

FULL-STACK • MERN • FLUTTER

Full-admin healthcare portal & mobile app featuring diagnostic symptom search, doctor appointment booking, and herbal inventory knowledge base management.

Flutter React Native Node.js Express MongoDB

INDUSTRY CERTIFICATIONS

MongoDB Certified: Data Modeling Path

ID: MDBwsxpdpu198

MongoDB, Inc. • VP Raghu Viswanathan • October 2026

Completed 8 specialized modules validating schema design optimization, anti-pattern mitigation, indexing architectures, data transformation pipelines, and relational-to-document migrations.

- ✓ Advanced Schema Patterns
- ✓ Schema Design Optimization
- ✓ Indexing Design Fundamentals
- ✓ Performance Techniques
- ✓ Relational to Document Model
- ✓ Data Transformation Pipelines
- ✓ Schema Anti-patterns
- ✓ CRUD Operations

ACHIEVEMENTS

- Active contributor to university technical workshops and competitive algorithmic hackathons at SLIIT.
- Selected member of SLIIT Faculty of Computing Tech Community & open-source research projects.
