TECHNICAL SKILLS

LANGUAGES

Java Python JavaScript TypeScript C
SQL

WEB & MOBILE

React 19 React Native Node.js Express.js
FastAPI Tailwind v4

AI & DATABASES

YOLOv11 OpenCV face-api.js MongoDB
MySQL

CORE STRENGTHS

- Analytical Problem Solving
- Team Leadership & Collaboration
- Time Management & Multitasking
- System Architecture & Admin

Sasiru Nethvidu Liyanage

Full-Stack Software Engineer • Computer Vision & AI Enthusiast

WORK EXPERIENCE

- Software Engineering Intern

Multi Talent Technology

Jun 2026 – Present

 - Developing production-ready web solutions with React, Node.js, and modern tech stacks.
 - Collaborating with engineering teams on database workflows, REST APIs, and UI architecture.
 - Actively participating in agile development sprints, code quality reviews, and testing.
- Trainee Account Assistant

Liberty Motor Associates

May 2024 – Jul 2024

 - Audited daily transactional records and conducted digital financial reconciliations.
 - Implemented automated spreadsheet records for billing, inventory, and ledger accuracy.

EDUCATION & QUALIFICATIONS

- BSc (Hons) in Information Technology

Sri Lanka Institute of Information Technology (SLIIT) • 2nd Year

2024 – Present

 - Specialization in Information Technology & Full-Stack Software Engineering.
 - Core Modules: OOP in Java, Database Management Systems (SQL), DSA, Web Tech, C.
- GCE Advanced Level Examination (2023/24)

Gurukula College, Kelaniya • Commerce Stream

2023 – 2024

 - Accounting: A (Distinction) | Business Studies: B | Economics: B
 - Strong foundation in business logic, financial data structures, and analytical problem-solving.

KEY TECHNICAL PROJECTS

- AI Suspicious Activity & Weapon Detection

YOLOv11 • FASTAPI

Real-time Computer Vision security system detecting weapons (guns, knives) and behavioral anomalies via live PTZ feeds (<30ms latency).

Python YOLOv11 FastAPI React OpenCV
- AyurLife Healthcare

FULL-STACK

Full-admin healthcare portal & mobile app with diagnostic booking and herbal inventory.

React 19 Node.js MongoDB
- GitBrain AI Studio

AI AGENTS

AI developer ecosystem with automated semantic snapshots and AI PR reviews.

TypeScript React Node.js
- Biometric Face Verification Platform

NEURAL NETWORKS

Facial biometric recognition app using face-api.js neural networks for automated employee attendance & access authorization.

face-api.js React Node.js MongoDB
