TECHNICAL SKILLS

LANGUAGES

- Java Python JavaScript TypeScript C
- SQL

WEB & MOBILE

- React 19 React Native Node.js Express.js
- FastAPI Tailwind v4

AI & DATABASES

- YOLOv11 OpenCV face-api.js MongoDB
- MySQL

CORE STRENGTHS

- Analytical Problem Solving
- Team Leadership & Collaboration
- Time Management & Multitasking
- System Architecture & Admin

Sasiru Nethvidu Liyanage

Full-Stack Software Engineer • Computer Vision & AI Enthusiast

EDUCATION & QUALIFICATIONS

- BSc (Hons) in Information Technology** 2024 – Present
Sri Lanka Institute of Information Technology (SLIIT) • 2nd Year
- Specialization in Information Technology & Full-Stack Software Engineering.
 - Core Modules: OOP in Java, Database Management Systems (SQL), DSA, Web Tech, C.
- GCE Advanced Level Examination (2023/24)** 2023 – 2024
Gurukula College, Kelaniya • Commerce Stream
- Accounting: A (Distinction) | Business Studies: B | Economics: B**
 - Strong foundation in business logic, financial data structures, and analytical problem-solving.

WORK EXPERIENCE

- Software Engineering Intern** Jun 2026 – Present
Multi Talent Technology
- Developing production-ready web solutions with React, Node.js, and modern tech stacks.
 - Collaborating with engineering teams on database workflows, REST APIs, and UI architecture.
- Trainee Account Assistant** May 2024 – Jul 2024
Liberty Motor Associates
- Audited daily transactional records and conducted digital financial reconciliations.
 - Implemented automated spreadsheet records for billing, inventory, and ledger accuracy.

TECHNICAL PROJECTS

AI Suspicious Activity & Weapon Detection

YOLOv11 • FASTAPI

Real-time Computer Vision security system detecting weapons (guns, knives) and behavioral anomalies via live PTZ feeds (<30ms latency).

Python YOLOv11 FastAPI React OpenCV

AyurLife: Integrated Ayurvedic Healthcare Ecosystem

FULL-STACK • MERN

Full-admin healthcare portal & React Native mobile app with diagnostic search, doctor booking, and herbal inventory knowledge base management.

React 19 React Native Node.js Express MongoDB

GitBrain: Autonomous AI Version Control Studio

AI AGENTS • TYPESCRIPT

Modern developer ecosystem featuring automated semantic snapshots, AI PR code reviews, and git-less project management.

TypeScript React Node.js AI Engine

Real-Time Biometric Face Verification Platform

NEURAL NETWORKS

Facial biometric recognition app using face-api.js and MongoDB for automated employee registration, live attendance, and access control.

face-api.js React Node.js MongoDB
